BALLOT ADVISORY MEASURE

This Ballot Initiative has been placed on the ballot by *Students for Sustainable Hydration*. Should the Associated Students halt its sale of single-use bottled water at Chico State as soon as contractually possible?

□ YES
□ NO
Impact Statement Prepared by
Chico State Students for Sustainable Hydration

Chico State Students for Sustainable Hydration is encouraging our Associated Students to take the next step in becoming a sustainable campus by halting its sale of single use bottled water on our campus. Bottled water is more than 1,000 times the cost of tap water. Students at Chico State should not have to pay for water when we have it available for free. With the recent installation of the new water refill stations, free, clean, filtered water will be easily available for all students to access. Your vote in favor of halting the sale of this environmentally damaging product is an action you as an individual can take to promote a cleaner world and a greener campus.

Impact Statement Prepared by the Associated Students, CSU, Chico

Your Associated Students (AS) Dining Services realizes more than $80,000 each year from single-use water bottle sales at its various locations. We offer the product because of the current demand. If a suitable product replacement is not found to generate the same level of income, prices in AS Dining operations will increase. AS Dining locations include BMU Marketplace, Common Grounds, Creekside Café, and Butte and Holt Stations.

Additionally:
1. The money generated from the sales of bottled water helps support many current sustainable programs such as compostable utensils, Bring Your Own Cup programs, and our Real Food Challenge efforts.

2. Dining Services comprises only one area of the AS. Each area of the AS pays into shared services such as IT or Human Resources. If Dining Services loses its ability to support shared costs, several AS Programs and operations such as Community Action Volunteers in Education (CAVE), GSEC, AS Recycling and Adventure Outings will suffer financially.

3. Water is a healthy choice. Buying single-use bottled water is also a choice. By halting the sales we are taking away this choice and making the decision for the customer.
