He said they first assessed which staff/students were affected by the fire. They then worked to make sure students and staff would be paid on time. He said there were many requests to use the BMU and the WREC and the WREC was used for first responders to take showers. He said staff worked with the Today Show at Sutter Dining on Tuesday of Thanksgiving week to provide a meal for first responders. On Thanksgiving Day at the BMU auditorium and Sutter Dining locations, they worked with World Central Kitchen, a group of chefs and others that go out to serve people during emergencies. He said the City of Paradise wanted to fund as many dinners as possible at these two locations and Sierra Nevada. He said staff had to be called in to clean, set up, etc. and Clyde coordinated the staff for this event. Buckley said meals were prepared for 10,000; unfortunately, only approximately 2,000 were served between Sutter Dining and the BMU. A lot of food was transported to evacuation sites for distribution. In addition, on 11/19 and 11/26 the BMU auditorium was used as a “one-stop shopping” event for those effected by the fires. Buckley said he is proud that our AS staff stepped up and helped out (Cox joined the meeting at 11:18 a.m.). He noted they are still putting together a list of students that lost their home and property in the Paradise area so they can

provide financial aid to those in need. He said students will also be eligible for another scholarship to buy books for the spring semester. Buckley said students can go to the SSC for assistance, as well as other areas on campus. He also noted that challenges of this disaster will be addressed on a long-term basis. He said Chico is already impacted by the housing market. Scott thanked the staff for their time and effort to help everyone.

- VII. WREC DIRECTORS REPORT** – Sicheneder acknowledged the WREC staff and their work for the First Responders. He said they had also hoped to open the WREC during the fire to serve local students, but due to poor air quality as well as Norovirus concerns, the decision was made to not do so. He said this past weekend WREC staff focused on clearing ash off the pool deck, tarps, etc. In addition, FMS changed all the air filters in both the BMU and the WREC. • Sicheneder said he has been working on capital expenditures.
