

AS Sustainability Internship Application

Accepting applications to BMU 005 until February 9th or until all positions filled

Name: _____ Student ID # _____
Email: _____ Main Phone: _____
Portal Username: _____ Major: _____ Your Academic Year: _____

I am interested in interning with the following Project Teams: (Rank your top 3 choices, 1 = most interested)

☐ Green Events ☐ Real Food Challenge ☐ Education and Outreach ☐ Graphic Design
☐ Compost & Garden ☐ Sustainability Fund

Intention to enroll in units: (Leave blank if unsure). This is an unpaid internship

- ☐ Department of Undergraduate Studies, UNIV 389 - Credit/No Credit
- ☐ GEOS 489 (Geosciences) – Graded
- ☐ MGMT 389C (Management) – Must work with the Real Food Challenge's Audit program.
- ☐ Units in Your Major: _____ Instructor: _____

Please describe why you are interested in getting involved with AS Sustainability

Please list any relevant skills you have that could be an asset to the AS Sustainability Program.

Please describe any previous experience or current affiliations you have with other on-campus clubs, programs, student organizations or other extracurricular activities.

I understand that by submitting this application, I have indicated interest in committing myself to being involved this semester and that I am able to fulfill all requirements listed. I understand that if I fail to meet *all* of the requirements, I will receive No Credit for the semester.

Student Signature: _____ Date: _____

The AS Sustainability Center exists to ignite a passion in the campus community to be active in protecting and restoring the earth. We do this by researching, imagining, and creating solutions that address environmental and cultural problems. The overall goal of the internship program is to offer students the opportunity to engage in student driven and action oriented projects and activities.

Project Team Descriptions:

- 1) **Green Events:** Organizes annual events such as Campus Sustainability Day as well as collaborates with event planners across campus to create zero waste and sustainable events.
- 2) **Real Food Challenge:** Works with AS foodservice and the national organization to reach a goal of providing 20% Real Food by 2020. The focus is to enter and analyze purchasing data as well as communicating the results to the campus community.
- 3) **Education and Outreach:** Strives to increase awareness and action by organizing interactive workshops, field trips, and campaigns.
- 4) **Graphic Design and Media:** Promotes the activities of the center through the creation of posters, video, and social media content.
- 5) **Compost and Garden:** Manages the AS compost and garden area as well as hosts workshops, field trips, and volunteer days.
- 6) **Sustainability Fund:** Hosts grant workshops, manages finances, and performs administrative duties in support of the student sustainability grant program.

AS Sustainability Internship Requirements

1 unit = 45 hrs/semester (~3 hrs/wk), 2 units = 90 hrs/semester (~ 6 hrs/wk), 3 units = 135 hrs/semester (~9 hrs/wk)

The below is based on a one-unit internship. Two unit and three unit internships require additional participation, written outreach materials, and program leadership.

- Attendance at two All Intern Meetings and weekly program meetings
- Specific requirements based on focus option
 - **Green Events:** Assist in planning Campus Sustainability Day, consult with event planners, and participate in a wide range of campus events.
 - **Real Food Challenge:** Become trained in the use of the Real Food Calculator, enter purchasing data into the database, and create one educational display or lead an activity related to sustainable food systems.
 - **Education and Outreach:** Organize a DIY workshop or Skills Share, publish educational materials for Constant Contact and social media and/or participate in the Eco Radio Show, and create and lead one educational activity for preK-12grade students.
 - **Graphic Design and Media:** Create one event or campaign poster, create one visually engaging tabling display, and create consistent posts on social media outlets.
 - **Compost and Garden:** Create and manage one hot compost pile, give one field trip presentation to a CSU, Chico class, and host a volunteer work party.
 - **Sustainability Fund:** Assist with three Sustainability Fund workshops, create three project highlight brochures, and learn and practice the fiscal management of individual project funding.
- Participation in the Sustainability Center's broader efforts:
 - Earth Day (2 hours), Compost garden work day (2 hours), Tabling (4 hours), Class talks (4)
- Research paper (2 pages) and Reflection survey

Mark time unavailable with an "X" (include classes, jobs, and other activities for this semester) **Open spaces = Available**
