Chico State is special for many reasons, but what truly sets us apart from every other CSU is our Associated Students. I began my time with the AS at Chico State in 2012, and each year I have witnessed firsthand all of the amazing things we do. This last year was no exception to the sustained excellence we, as the Associated Students, commit to every year.

Only in its second year, the Student Academic Senate, in partnership with the Master in Social Work (MSW) program, commissioned a study into diversity and inclusion on behalf of the student body. The resulting report is now in wide circulation and is serving as a statewide model for future reports being commissioned throughout the CSU.

The principles of shared governance continue to develop on our campus, with students gaining better representation and consultation through the Associated Students. The California State Student Association has taken notice of these advancements and is using our work as the foundation for a system wide model.

Our Associated Students is consistently recognized as a pioneering force in sustainability, governance, service, accountability, and transparency. Student leaders from every other CSU campus have approached me to inquire about all of the amazing programs, events, and services we offer. They constantly ask me how we manage to do everything, and my response every time is, “We have amazing student leaders who are guided and assisted by exceptional career staff.”

The collective efforts and innovation of our students and staff have allowed us to outshine every other AS in the system and serve as the model institution for the entire CSU. So, let us reflect on the successes of the 2015-16 school year and continue our record of sustained excellence into the new school year.

Sincerely,

Michael Pratt
