Advisory Measure Introduction- Provided by GEOG 440 Class

Climate change poses the biggest threat to our species and our global security.

The incorporation of climate change education within our existing curriculum will improve all Chico State students' understanding of the global crisis while giving them the tools to apply that knowledge within their lives, and well into their future.

BALLOT ADVISORY MEASURE

Climate change has never been a more pressing issue than it is today. It is not only our desire, but also our responsibility to protect, preserve, and cherish this vulnerable planet and all of its living systems that make up our home. The first step in this process is to educate ourselves. Therefore, Should the Associated Students encourage the university to incorporate climate change education in all fields of study so graduates can thrive in the changing 21st century?

- YES
- NO
