Kinney shared that the 440 students would like the new Siskiyou building to be fossil free. The original plan was to create an all-electric building but it was changed to use natural gas. Krater asked what the change would look like and Stemen shared that it would be an all-electric building powered by solar energy. O'Donnell asked for clarification about the design decisions. Discussion was had regarding the

D. Information Item: Local Agency Investment Fund and Certificates of Deposit for quarter ending 12/31/17 –
Slaughter reviewed the quarterly report that shows the investments and the earnings of the corporation in the

H. Time Certain at 4:45 p.m. for Milton Lang – Dr. Lang gave a brief presentation regarding the upcoming
discussions surrounding the Alternative Consultation process. The main goal would be to provide
opportunities for students to engage in this process and provide feedback. In addition to the student groups,
President Hutchinson would like Lang and Larson to meet with faculty across campus to get their input on the
matter. Several ideas were shared in order to promote information about the process. Anderson shared that
it’s very important for students to understand the difference between campus based fee increases and CSU
based fee increases. Slaughter clarified that the process for Alternative Consultation means that a student
body vote is not required to raise fees and said it is important for students to know that this is not a fee
increase for the Associated Students. Discussion was had about students who are not in favor of increased
student fees and what will happen to the Student Health Center and the services they provide if students
aren’t willing to increase fees. Scarpa mentioned that it may be good to have the Student Health Center and
Athletics say exactly what this fee increase would be going toward. Camacho said that with a consultation
route, it’s going to be hard for students to understand why they don’t have a voice in the actual decision
making after all of their input is given out. Scarpa asked if the campus administration will provide an
explanation for why students do not get to vote for this. Sharma shared that after deliberation with the team a
statement will be given that will represent how this body voted on the matter. After the Campus Fee Advisory
Committee on Wednesday, they will have a final meeting with President Hutchinson.

go to CHESS as she cannot attend the advocacy day. A student came in and voiced his concerns surrounding the stigma surrounding autism. She shared a letter that the student provided. Scarpa shared that there is a lot of misinformation in society right now about what the causes are as it is a very confusing disorder. In October there was an autism symposium at Chico State and the students who put on that event should be reached out to for more information. Camacho said that she can reach out to Kiara Ferrari to see what is available to them. O’Donnell said this is very important to address as GAC is a voice for students and this was brought to her by a student. Krater stated that the Kinesiology department has the Autism Clinic which is the student group who works on this.
