Put cans/bottles into the recycling bins inside your offices, in the hallways of buildings and in the bins provided at outside locations.

All cans/bottle locations are picked up weekly by AS Recycling staff.

Bags of cans & bottles are brought back to the Recycling Warehouse where they are sorted into their respective categories: Clear Glass, Brown Glass, Green/Blue Glass, PET #1, HDPE #2, #4&5, Tin/Steal, Aluminum

All sorted material is taken to the North Valley recycling buy back center.

Materials are baled or crushed and sold on the international market.
